NUMBER 1

Original Scientific Papers

1 A calculated approach to perfume safety in consumer products
R. G. Harrison

9 Skin contact allergy to emulsifiers
M. Hannuksela

15 Protective effects of avocado and soya bean lipidic non-saponifiables on proliferation of fibroblasts cultured in altered conditions
J. Wepierre, A. Papin and M. Cormier

23 Effectiveness of macrogol and talcum base formulations of a new insect repellent N,N-diethyl phenyl acetamide
S. Prakash, S. Kumar, M. V. S. Surayanan, R. K. Sharma and K. M. Rao

29 Dehydroacetic acid sodium salt stability in cosmetic preservative mixtures
C. A. Benassi, A. Semenzato, M. Lucchiari and A. Bettero

39 **Announcements**

45 **Erratum**

NUMBER 2

Original Scientific Papers

47 Routine patch testing with the preservative system Kathon CG
A. C. de Groot, D. P. Bruynzeel, J. G. van der Schroeff and J. D. Box

53 Photostability assessment of sunscreens. Benzylidene camphor and dibenzoylmethane derivatives
A. Deflandre and G. Lang

63 Percutaneous absorption of p-phenylene diamine during an actual hair dyeing procedure
N. Goetz, P. Lasserre, P. Bore and G. Kalopissis

Review Paper

75 Silicones: use of substantive properties on skin and hair
A. Disapio and P. Fridd

91 **1988 Medal Lecture**

93 **Announcements**

NUMBER 3

Original Scientific Papers

99 Substantivity of sunscreens—preparation and evaluation of some quarternary ammonium benzophenone derivatives
M. F. Saettone, C. Alderigi, B. Giannaccini, C. Anselmi, M. G. Rossetti, M. Scotton and R. Cerini

111 Etude de l'action d'un traitement par voie topique sur la synthese de la keratine pilaire chez le Rat
F. Zahaf et J. Oustrin

117 Determination of sun protection factors. Correlation between *in vivo* human studies and an *in vitro* skin cast method
J. Ferguson, M. W. Brown, A. W. Hubbard and M. I. Shaw

131 Henna as an antimicrobial agent
C. J. W. Guerrier, A. Abdulwahab, N. Basri and S. Revill

137 Image analysis as a tool for measuring biological phenomena of the skin
S. P. Barton and R. Marks

145 **Letter to the Editor**

147 **Announcements**

NUMBER 4

Original Scientific Papers

149 Evolution of lipid composition in skin treated with blackcurrant seed oil
J. Brod, H. Traitler, A. Studer and O. De Lacharriere

161 Optical methods for measuring the pearlescent effect in toiletries
D. J. Miller, Alwin K. Reng and W. Skrypzak

Review Paper

171 Odours, emotion and psychophysiology
S. van Toller

199 **Announcements**

NUMBER 5

Original Scientific Papers

201 *In vivo* transepidermal water loss and skin surface hydration in assessment of moisturization and soap effects
D. Wilson, E. Berardesca and H. I. Maibach

213 Surfactant-induced fluorescence changes in fluorescein dye
A. K. Mathur, Chitra Agarwal, B. S. Pangtey, A. Singh and B. N. Gupta

219 The behaviour of cationic cellulose derivatives containing fatty quat groups
R. T. Jones and C. A. Brown

231 Chemical stability and microbiological reply of preservative systems in cosmetics: a direct correlation
C. A. Benassi, A. Rettore, A. Semenzato, A. Bettero and R. Cerini

239 *In vitro* studies on the effect of linear alkyl benzene sulphonate on serum albumin
Seema Javed, Virendra Misra and P. N. Viswanathan

Provisional Communication

245 Screening tests of free radical scavengers for preventing sun-accelerated cutaneous ageing
C. Bonne, A. Muller, C. Gregoire and D. Sincholle

NUMBER 6

Original Scientific Papers

257 A method for the determination of the carbon chain length composition of amine oxides
N. A. Langley, D. Suddaby and K. Coupland

263 *In vitro* release of propranolol from oil/water microemulsions
M. R. Gasco, M. E. Carlotti and M. Trotta

271 Photoallergic potential in the guinea-pig of the nitromusk perfume ingredients musk ambrette, musk moskene, musk xylene, musk ketone and musk tibetene
W. W. Lovell and D. J. Sanders

Review Paper

281 Action of skin penetration enhancers—the Lipid Protein Partitioning theory
B. W. Barry
